The Mountain People of Kentucky: An Account of Present Conditions With Ti-Ie, Attitude of Ti-Ie People Toward Improvement (Classic Reprint) Wm. Haney

It is the purpose of this book to show existing conditions in the mountains of Kentucky and the attitude of the people of this region toward the improvement of the conditions affecting life and character. It is also hoped that the chapter on Who They Are will modify the views of the general public in regard to the origin of the Mountain People and vindicate their good name against the careless charges so often made. The chapter on Location, dealing with natural features and the lack of transportation facilities, accounts for the retarded development; that on Feuds discusses the causes and magnitude and the present general tendency in feud districts toward conformity to law and order. The rapid progress of the Mountain People in spite of their disadvantages shows that they are responsive to the spirit of the age. Their future is most hopeful. If this book is of some importance in stimulating its readers to a higher plane of life, and in vindicating the name of the Mountain People, the aim of the author will have been achieved.
