In Ancient Rome an elite group of soldiers, known as the Praetorian Guard, were formed to protect Emperor's from their enemies.

In 2004, a modern day special forces equivalent is formed to protect the United States of America. Their Mission: to eliminate or capture terrorists worldwide. However, after an American family are caught in a crossfire and slaughtered by mistake - some question its very existence.

In the mountains of Montana, Senator Conrad Braxton, one of only three Senators who knows of the units existence, is appalled by the carnage and issues an ultimatum. Tell the President in 72 hours or I will!

With the units future in doubt powerful forces come to the fore and along with those within it decide to risk all to ensure Braxton never talks.

When a Praetorian Guard Captain inadvertently learns of the plot to silence Braxton he turns to one man who may be able to stop it.

Ray Casey, the Guards most decorated and seasoned veteran is sought out but when the Captain meets a violent death, Casey is framed for his murder and implicated alongside Braxton in aiding terrorists. With a Praetorian Guard Viper Team directed to eliminate both he and the Senator, Casey's only hope of survival is to embark on a rescue mission to save the Senator and to expose the cancer within. It's a rescue mission that soon turns into an epic manhunt through the forests of Montana, across America and finally to the corridors of power in the White house itself.
