You just invested a huge amount of money in a very powerful computer--so how do you use it?! Mac is arguably the best computer on the market, but if you have been a Windows user all of your life (or if you are a bit new to computers in general), then the software can be a little intimidating at first. This guide covers everything you need to know about your first Mac. Not just the operating system that comes with the Mac, but the suite of programs that you most likely bought with it: iWork and iLife. The guide also covers iTunes, and includes a section on 50 projects to help get you started--from creating a movie to burning a CD. If you are new to Mac or just want to know more, then this book will get you set up in no time at all!
