Islam poses a greater threat to the freedom and stability of modern society than any force in the world today. It is not a religion in the traditional sense. Islam is a system of Satanic, cultural imperialism melded into a seventh-century warrior code bent on subjugating the world-by force if necessary. The Cult of the Moon God exposes the myths of Islam and clearly shows how they run counter to the truths of the Judeo-Christian Scriptures, including:

- the great Islamic conspiracy
- the cultural war raging today
- the strange origins and customs of Islam
- how Allah and the God of the Bible differ, and
- what the concept of love and peace mean in Islam

The Cult of the Moon God sounds a warning bell for the free world, showing what must be done to prevent the cancer of Islam from having a terminal effect on the world as we know it.
