Thinking Mathematically (6th Edition)

Robert F. Blitzer

Thinking Mathematically (6th Edition) Robert F. Blitzer

In Thinking Mathematically, Sixth Edition, Bob Blitzer's distinctive and relatable voice motivates students from diverse backgrounds and majors, engaging them in the math through compelling, real-world applications. Understanding that most students in a liberal arts math course are not math majors, and are unlikely to take another math class, Blitzer has provided tools in every chapter to help them master the material with confidence, while also showing them the beauty and fun of math. The variety of topics and flexibility of sequence make this text appropriate for a one- or two-term course in liberal arts mathematics or general education mathematics.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. If you would like to purchase *both* the physical text and MyMathLab, search for **0321923235 / 9780321923233 Thinking Mathematically plus NEW MyMathLab with Pearson eText -- Access Card Package**

Package consists of:

0321431308 / 9780321431301 MyMathLab -- Glue-in Access Card

0321654064 / 9780321654069 MyMathLab Inside Star Sticker

0321867327 / 9780321867322 Thinking Mathematically

MyMathLab is not a self-paced technology and should only be purchased when required by an instructor.

From reader reviews:

Mark McCarver:

The book Thinking Mathematically (6th Edition) will bring that you the new experience of reading the book. The author style to spell out the idea is very unique. When you try to find new book to see, this book very ideal to you. The book Thinking Mathematically (6th Edition) is much recommended to you to read. You can also get the e-book in the official web site, so you can more easily to read the book.

Marie Guinn:

Your reading 6th sense will not betray you actually, why because this Thinking Mathematically (6th Edition) reserve written by well-known writer who knows well how to make book that can be understand by anyone who also read the book. Written throughout good manner for you, dripping every ideas and producing skill only for eliminate your own personal hunger then you still question Thinking Mathematically (6th Edition) as good book not only by the cover but also by the content. This is one publication that can break don't judge book by its include, so do you still needing one more sixth sense to pick this specific!? Oh come on your studying sixth sense already said so why you have to listening to a different sixth sense.

Alexander Taylor:

Many people spending their moment by playing outside using friends, fun activity having family or just watching TV 24 hours a day. You can have new activity to spend your whole day by reading through a book. Ugh, you think reading a book can really hard because you have to use the book everywhere? It fine you can have the e-book, getting everywhere you want in your Cell phone. Like Thinking Mathematically (6th Edition) which is getting the e-book version. So , try out this book? Let's see.

Kenneth Connolly:

As a university student exactly feel bored to help reading. If their teacher inquired them to go to the library or make summary for some e-book, they are complained. Just little students that has reading's spirit or real their pastime. They just do what the teacher want, like asked to the library. They go to there but nothing reading critically. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Thinking Mathematically (6th Edition) can make you feel more interested to read.
