## **Twelve Pillars: The Skills You Need to Succeed** Chris Widener

The single most common mistake made by those who want to accomplish more in life is thinking they can "get by" without a well-written success plan! That is the equivalent of committing "Success Sabotage"! A second problem is the reliance on other "Success" systems that are flawed in one or many ways. As an example:â€¢ Many programs leave out certain principles that are crucial for success which leave you frustrated.â€¢ Many don't teach you to set reasonable goals.â€¢ Confusion due to vague and incomplete instructions.â€¢ Many don't warn you about the common mistakes to avoid. The end result: You unknowingly do the wrong things, even though you are following instructions to the letter, and end up with the wrong results. Those are the reasons why Jim Rohn and Chris Widener (two of today's most respected success consultants and speakers) decided to collaborate and design a system that would help anyone craft their own personal development plan, minus the flaws described above. During their climb to success, Jim and Chris kept meticulous notes, and discovered the major principles that are crucial to anyone's success. These many principles were analyzed extensively (through both their own experience and consultation work) and distilled into twelve easy to understand principles (or "pillars" as they call it). They are: But they didn't stop there. They went further and created a system that not only helps you learn these principles but also guides you, step-by-step, to craft a personal and actionable Success Plan.
