The Black: Arrival

Paul E. Cooley

The Black: Arrival Paul E. Cooley

The crew of the deep-sea exploration rig Leaguer discovers oil sweeter, purer, and sure to be more easily refined than anything that's ever existed. To confirm their own analysis of their billion dollar find, a test barrel is flown from the drill site off the coast of Papua/New Guinea to Houston Analytical Laboratories (HAL).

As the unsuspecting scientists at HAL await the arrival of the oil, they ready their lab for what they know is an important job. They've seen the test results from Leaguer; this find could make history.

While the barrel is on its way to Houston, an "infection" breaks out on the far-away rig. And as life aboard the rig descends into chaos, the scientists at HAL make their own discovery—what Leaguer found is indeed historic; it just isn't oil. Instead, they've brought up a dangerous organism that could threaten all life on earth.

Trapped in their labs, the scientists must find a way to fight a creature that defies chemistry, physics, and biology.

The Black: Arrival, a parallel story to the Amazon Horror Best-Seller The Black, is a page-turning suspense novel that will fill you with claustrophobic terror.

Now that The Black has arrived, will humanity survive?
