Intelligent Information Processing II: IFIP TC12/WG12.3 International Conference on Intelligent Information Processing (IIP2004) October 21-23, 2004, ... in Information and Communication Technology)

Data Mining is the process of posing queries and extracting useful information, patterns and trends previously unknown from large quantities of data [Thu, 00]. It is the process where intelligent tools are applied in order to extract data patterns [JM, 01]. This encompasses a number of different technical approaches, such as cluster analysis, learning classification and association rules, and finding dependencies. Agents are defined as software entities that perform some set of tasks on behalf of users with some degree of autonomy. This research work deals about developing a automated data mining system which encompasses the familiar data mining algorithms using intelligent agents in object oriented databases and proposing a framework. Because the data mining system uses the intelligent agents, a new user will be able to interact with the data mining system without much data mining technical knowledge. This system will automatically select the appropriate data mining technique and select the necessary field needed from the database at the appropriate time without expecting the users to specify the specific technique and the parameters. Also a new framework is proposed for incorporating intelligent agents with automated data mining. One of the major goals in developing this system is to give the control to the computer for learning automatically by using intelligent agents.

From reader reviews:

Rebecca Burks:

Why don't make it to be your habit? Right now, try to ready your time to do the important behave, like looking for your favorite reserve and reading a reserve. Beside you can solve your condition; you can add your knowledge by the book entitled Intelligent Information Processing II: IFIP TC12/WG12.3 International Conference on Intelligent Information Processing (IIP2004) October 21-23, 2004, ... in Information and Communication Technology). Try to stumble through book Intelligent Information Processing II: IFIP TC12/WG12.3 International Conference on Intelligent Information Processing (IIP2004) October 21-23, 2004, ... in Information and Communication Technology) as your pal. It means that it can being your friend when you experience alone and beside those of course make you smarter than before. Yeah, it is very fortunated for yourself. The book makes you far more confidence because you can know almost everything by the book. So , let me make new experience and also knowledge with this book.

Barry Houde:

A lot of people always spent their particular free time to vacation as well as go to the outside with them family members or their friend. Do you know? Many a lot of people spent many people free time just watching TV, or perhaps playing video games all day long. In order to try to find a new activity that is look different you can read a book. It is really fun for you personally. If you enjoy the book that you simply read you can spent the whole day to reading a e-book. The book Intelligent Information Processing II: IFIP TC12/WG12.3 International Conference on Intelligent Information Processing (IIP2004) October 21-23, 2004, ... in Information and Communication Technology) it is very good to read. There are a lot of folks that recommended this book. We were holding enjoying reading this book. Should you did not have enough space bringing this book you can buy typically the e-book. You can m0ore very easily to read this book from the smart phone. The price is not to cover but this book offers high quality.

Kevin Masterson:

With this era which is the greater man or woman or who has ability to do something more are more treasured than other. Do you want to become considered one of it? It is just simple way to have that. What you should do is just spending your time little but quite enough to get a look at some books. One of several books in the top list in your reading list is usually Intelligent Information Processing II: IFIP TC12/WG12.3 International Conference on Intelligent Information Processing (IIP2004) October 21-23, 2004, ... in Information and Communication Technology). This book which can be qualified as The Hungry Mountains can get you closer in getting precious person. By looking right up and review this reserve you can get many advantages.

George Chadwick:

You will get this Intelligent Information Processing II: IFIP TC12/WG12.3 International Conference on

Intelligent Information Processing (IIP2004) October 21-23, 2004, ... in Information and Communication Technology) by look at the bookstore or Mall. Just viewing or reviewing it can to be your solve difficulty if you get difficulties for your knowledge. Kinds of this publication are various. Not only by simply written or printed but also can you enjoy this book by e-book. In the modern era like now, you just looking of your mobile phone and searching what your problem. Right now, choose your own personal ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose right ways for you.
