Anybody who has lived in a city for any significant amount of time knows just how different the circumstances can be in a survival situation. When disaster strikes it can take only hours for society to begin to break down. This book can help you in learning the basics of survival and prepping in urban environments. It will provide you with basic information to help you keep safe in the event of either natural or man-made disaster

Urban survival is so much more than just building shelters in the woods and taking refuge. There's very seldom a chance, in a disaster situation, for city dwellers to go out and hunt or forage for food. Because of swollen, concentrated populations as well as unique infrastructure challenges, urban areas are among the toughest to survive in the event of a disaster. This book contains 50 great tips for surviving in an urban disaster.

Here is what you will learn after reading this book:

- The best ways to source, stock, and utilize clean water and safe food for your family.
- How to take advantage of the unique infrastructure of a city in a survival situation.
- How to provide for the security and safety of your family.
- All of this and more!
