Sacrilege is a deliberate offense on the status quo. Basic assumptions are challenged in an expressionist manner usually found in the arts. Very strong use of words to convey a point that is often not understood without the use of such techniques. It is meant to offend and be taken seriously, or not, depending on the reader. At its foundation, it is a challenge on basic foundations of social constructs, a programming designed for another era in time. Humans are programmable computers in need of an update from the old system, once necessary, but now obsolete.
