There is a chaos coming that is predicated upon the rise of Islam, Satanic Soldiers, aliens, and evil beyond measure. As an ideology, Islam masquerades as a religious light to the world, one that promises to usher in world peace but at what cost? Through the use of political strategies, military might, and religious tenets, adherents of Islam work within various established governments to create special laws or exemptions for Muslims, in the hope of eventually overthrowing that established government. Americans and other Democratic nations have a tendency to believe that something as antiquated as Islam and as barbaric as Sharia Law have little to no chance of succeeding as a worldwide venue. Yet, this is obviously far from the truth. By merely looking at current conditions in The Netherlands, Great Britain, France, and elsewhere, a clear picture is seen that those who profess Allah as god have no difficulty pursuing a course of action that promotes Allah under the three-pronged system of Islam. But Islam, while a very real threat, is not the only one. Many believe that something known as The Black Awakening will one day occur, bringing those among us who seem to live normal lives, but are deeply connected to Satan, awake to do his bidding, further precipitating a worldwide disorder. With the help of these Satanic Soldiers woken to their true calling, as well as the false front of demons masquerading as aliens, and the barbarism of Islam, Satan is leading an army in which he hopes to capture all of mankind. Sound far-fetched? Too much like science fiction? Think again because what may seem like the plot of a Sci-Fi movie, may well be at our door. The question is...what, if anything, can be done about it?
